- Fire and safety
- Surveillance
- Search and rescue

What makes Pambry different?

- UK based
- Fast response to customer requirements from single units or to high quantities
- Increased efficiency by developing in house test equipment
- Multi skilled personnel in harness design with experts in cable assembly manufacture, PCB hand soldering, and encapsulating into enclosures
- Rapid assistance to any issues supported by its in house engineering department
- World class test equipment
- Customer requirements fulfilled by technical solution or 'build to print' using the latest 3D software
- Certified assembly staff to IPC-A 610 and IPC/WHMA-A-620 standard with over 10 years experience

Typical examples of our experience:

- Install electronic circuitry into breathing mask or other clothing
- Waterproof multipin cable and connector construction including overmoulding
- Assembly of electronic hand held products
